

# **CAN Europe position on long term targets: net zero by 2040 and the energy transition**

**CAN Europe General Assembly**

October 2018

# Possible issues to consider

Fossil fuel phase-out dates

- Coal
- Gas

100% renewable energy system

- By when overall?
- By when for electricity?
- Acceptable technologies
- Infrastructure

Rich vs. poor countries?

Consumption

- Energy
- Electricity

Buildings

- Heating and cooling

Anything else?

# How we move forward

- Time to prioritise
- What has already been done?
- Are there gaps?
- Where is the expertise?
- Other strategic considerations?

# Suggested next steps

- Collection relevant members' positions/studies/etc.
- Identify who will be involved in further discussions
- Someone to lead
- Working group
- Suggested deadline Feb 2019 (ideally ahead of European Parliament elections for use in outreach/advocacy; or else for new European Commission)

**Thank you for your attention**
