

# **Position on long-term targets and impact on short- and long-term targets and policies in multiple sectors**

**Brussels, 23 October 2018**

# Agreed position (1)

- **Net zero greenhouse emissions by 2040 in the European Union**
- What does this mean in more detail?
  - -95% and 5% removals or increased removals?
  - Full phase out all fossil fuel use?
  - Different trajectories for the power sector?  
Transport? Industry? Agriculture?
  - Outside EU?

# Agreed position (2)

- Compatible with existing 2030 positions?
  - At least -55% greenhouse gas emissions
  - At least -40% energy consumption
  - At least 45% renewable energy
  - Coal phase out
- Should we adapt and how?
